

# USB-C M.2 MVMe SSD Enclosure

DSP-111

Fast. Reliable. Ready to go.

- Fashionably designed for your on-the-go lifestyle, with a rugged aluminum alloy case that resists abrasion from frequent use
- Harness ultra-high-speed data transfer with NVMe support, offering high bandwidth and low latency
- Supports up to 4TB of storage, depending on the installed M.2 SSD
- USB 3.2 Gen 2 interface enables data transfer speeds of up to 10Gbps
- Compatible with multiple M.2 SSD form factors, including M key and B+M key interfaces
- Three-layer heat dissipation system, encased in aluminum alloy, ensures efficient cooling during operation
- Universal OS support: works seamlessly with Windows, macOS, Linux, and Android

### Up to 4TB SSD Capacity

Store everything you need wherever life takes you, all in a lightweight enclosure

### Up to 10Gbps Data Transmission

Transfer or backup large files in seconds to keep your workflow moving

### Aluminum Alloy Case

The aluminum alloy case features an industry-leading heat dissipation structure ensuring high durability and reliability

### Wide Compatibility

Compatible with multiple M.2 SSD form factors, including M key and B+M key interfaces

### Tool Free Installation

Just slide in an M.2 SSD, secure it with the latch, then slide the cover to lock the case.

### Increased Productivity

Say goodbye to searching for important files – keep your work files readily accessible and let your creative ideas flourish during content creation without delays

### Plug & Play

No driver installation needed – it's completely plug and play, with no external power connection required

### Your Ultimate Companion

Streamline your file storage needs with access to quick, dependable data transfers, whether you are in the office, home or on the go

Technical Specifications	
<b>General</b>	
SSD Interfaces	M.2 NVMe/NGFF SSD (compatible with M key /B+M key)
SSD Form Factor	2230/2242/2260/2280
USB Connector	USB 3.2 Gen 2 Type-C <sup>1</sup> : 10Gbps <sup>2</sup>
Capacity	4TB
UASP Support	UASP (USB Attached SCSI Protocol) is supported
<b>Supported System</b>	
Operating System	macOS, Windows 10, Windows 11, Linux and Android
<b>Physical</b>	
Case	ABS + Aluminum Alloy
Dimensions	124 x 35 x 14mm
Weight	86g
Operating Temperature	0°C~40°C
Storage Temperature	-20°C ~ 75°C
Operating Humidity	10% to 90% non-condensing
Storage Humidity	5% to 95% non-condensing
Certifications	CE, FCC Class B, IC, RCM
<b>Ordering Information</b>	
DSP-111	USB-C M.2 MvMe SSD Enclosure
Barcode / UPC	790069479793

<sup>1</sup> Backward compatible with previous USB versions.

<sup>2</sup> Actual speed may vary depending on the hardware, software, and usage conditions at both ends.
